THIRD ENERGY APPOINTS CHIEF EXECUTIVE OFFICER

Third Energy Onshore Limited (Third Energy Onshore) has appointed Alan Linn as Chief Executive Officer. The appointment follows the purchase of the Third Energy Onshore business by York Energy (UK) Holdings Ltd. (York Energy).

Alan Linn commented:

“I am very pleased that Third Energy Onshore has secured its long-term future, including the jobs of our team in Yorkshire, through acquisition by York Energy. The sales process has delivered a strong outcome for the business and prospects for growth. The recently published Committee on Climate Change report highlighted the important role indigenous natural gas must play in supporting delivery of the government’s 2050 net zero target for carbon emissions. Our focus will be on developing our onshore gas and power generation businesses.”

Alan Linn was previously Chief Operating Officer of Third Energy Onshore, which operates gas exploration, appraisal, and production assets and the Knapton Generating Station in North Yorkshire.
